

IT'S A MATTER OF BROADER CAPABILITIES

We Are A Registered Investment Advisor (RIA), Making The Financial World Your Oyster...

The financial world is large and seemingly unlimited in terms of the types of investment vehicles that are out there. It is no secret that the more money you have, the greater flexibility available to you when it comes to investing. The number and types of investments that you can participate in simply become greater. Often, this type of flexibility also comes at a lower fee.

Partnering with an experienced and suitable firm can help you take advantage of all the investment vehicle options that are out there. The question is...what do you look for to find a suitable firm?

- ✈️ A firm that has a **Fiduciary Responsibility**, which regulatory rules requires them to act only in the best interest of the clients.
- ✈️ A firm that is independent, not restricted, or incentivized by proprietary products or investments.
- ✈️ A firm that will seek to make each of your invested dollars purposeful, based on a larger, overall plan, unique to you.
- ✈️ A firm that does not group its assets together in "cookie cutter" portfolios.
- ✈️ A firm that has access to a broad range of investment vehicles and products, and the knowledge of how to use them.
- ✈️ A firm that will give you all options available to you, educate you on them, and allow YOU to choose what fits you and your family best.

ARS is part of an RIA, which requires us to act in a fiduciary capacity and allows us not to sell proprietary products. This gives us the flexibility to work with a wider range of investment options. We look at your overall customized plan and find the appropriate investment vehicles for you, based upon your needs. You are then presented with a buffet of options and we will educate you on the pros and cons of each so that you can make an informed decision on what is most suitable for you and your family.

It Is Simply A Matter Of Broader Capabilities.
